

About MHC Services Group.

MHC Services Group (MHC) is a trusted technology and operational consulting services partner with specialized expertise in the healthcare payer industry and extensive experience serving the Texas market and beyond. **Texas health plans** are at the forefront to redefine the future of healthcare, navigating new strategies for value, affordability, transparency, and accessibility and setting the course for healthcare innovation and transformation. With that comes many challenges to determine the right course of action and the right technology and resources to successfully meet these objectives.

We **understand the challenges your organization faces in the transformation process.** With the ever evolving state and federal mandates, health plans must navigate these transformations effectively while meeting regulatory demands, controlling costs, and ensuring that Texans receive the comprehensive medical care and social services needed to live healthier lives. MHC is equipped to provide the technical and operational support including:

- Program Management
- Project Management
- Integration Management and Services
- Day to Day Operations Support
- Reporting Development

The MHC team is also specialized in **leading, navigating, and providing end to end execution for complex core administration processing system implementations.** Additionally, MHC provides transformation and optimization of business processes.

With an experienced, adaptable and tenured team, MHC ensures **appropriate resource and approach alignment in support of on-time and within budget results.**

MHC Services Group's **approach is flexible and adaptable to meet our client's unique requirements** in support of achieving our client's goals and objectives for each project and their organization. MHC's best-fit approach includes alignment of proven best practices, MHC's proprietary methodologies, and client specific methodologies ensuring quality, successful outcomes.

Services Provided.
